

## FEATURES -

- Pivoting panel between inline fixed and 90 degree return panel for use on tiled or fabricated shower.
- Frameless tempered safety glass with polished edges throughout.
- Heavy anodized aluminum extrusions with built-in adjustment for out of square walls.
- Minimal use of highest quality solid brass components secured through pre-drilled holes in glass.
- Corrosion resistant stainless steel screws and fasteners plated in decorative finish.
- Clear vinyl hinge gasket and pivot panel sweep for water tight seal.
- Standard height = 76-3/4" (top of support arm), 75-1/8" (top of glass). Custom height available.

Unique wall brace stabilizes fixed panel, eliminating the need for a header.

180 degree pivoting solid brass hinge with all stainless steel moving parts to ensure no rust or stiffening.

Solid brass pull with stainless steel mounting hardware.

## OPTIONS -

- 10 mm (HL10) thick glass. Not available in 6mm glass.
- Glass available in Clear (C) or Rain (R) and a variety of other Designer Colours & Textures. Refer to options sheet for additional information.

HL10-290-Q	Custom sized door. Contact for information.	

**\*\*\* NOTE \*\*\***  
**HL10 doors are considered heavy doors and as a result they require backing in the wall along the full length of the wall jamb and at the wall brace.**
