

FEATURES -

- Door panel between two neo-angle fixed panels for use on tiled or fabricated showers. Door can be reversed for left or right swing.
- Frameless tempered safety glass with polished edges throughout.
- Heavy anodized aluminum extrusions with built-in adjustment for out of plumb walls.
- Minimal use of highest quality solid brass components secured through pre-drilled holes in glass.
- Clear vinyl magnetic door closure, hinge gasket and pivot panel sweep for water tight seal.
- Standard height = 70-3/4" (top of support arm), 69-1/8" (top of glass). Custom height available up to 76-3/4" / 75-1/8".

Unique wall brace stabilizes fixed panel, eliminating the need for a header.

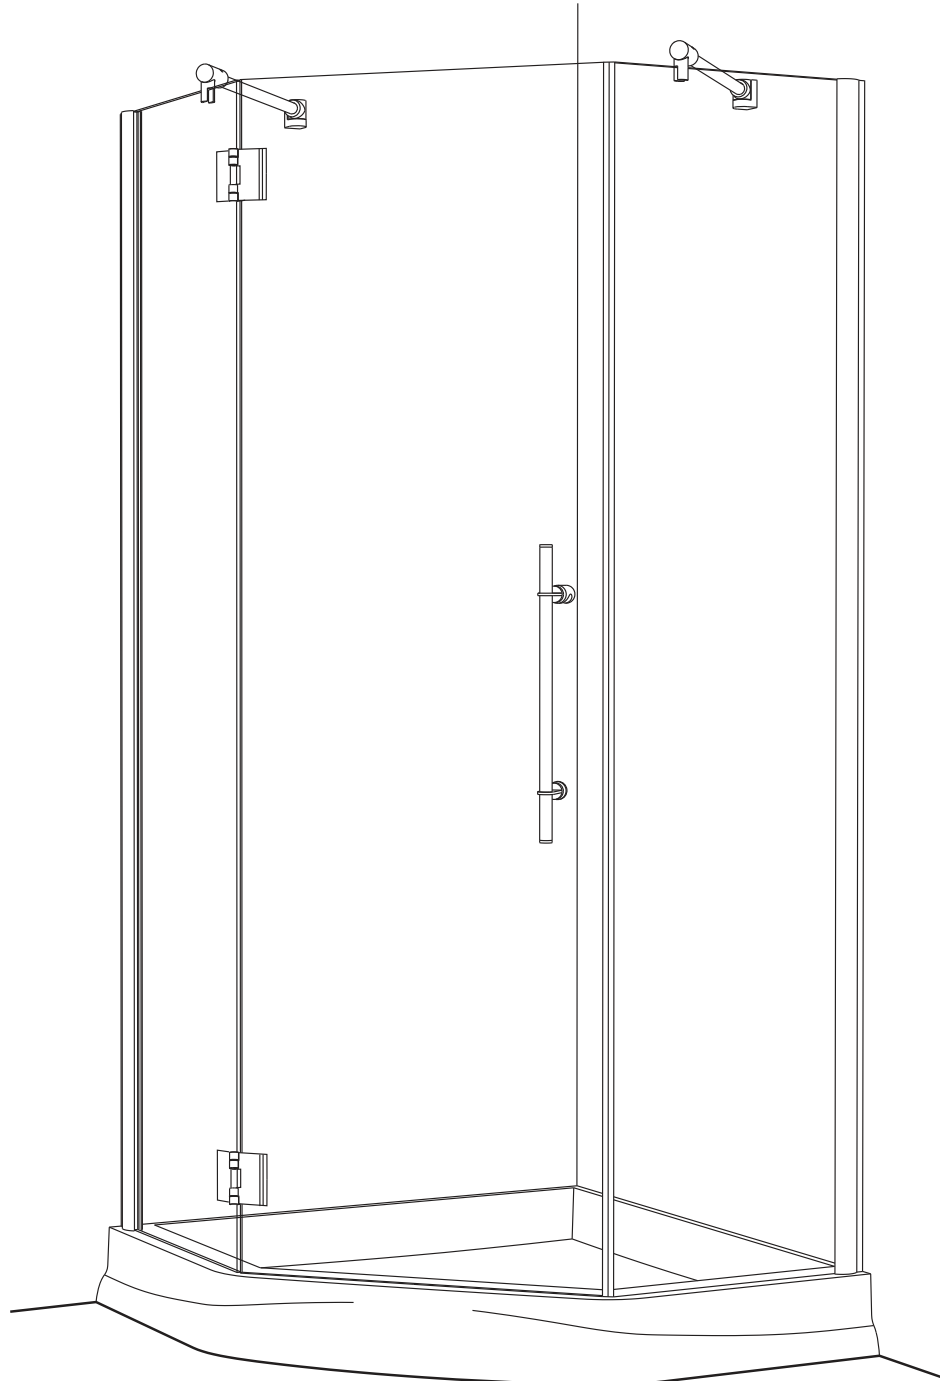

180 degree pivoting solid brass hinge with all stainless steel moving parts to ensure no rust or stiffening.

Solid brass single sided 16" pull with knob and stainless steel mounting hardware.

OPTIONS -

- 6 mm (HL6) or 10 mm (HL10) thick glass.
- Glass available in Clear (C), Obscure (O) - HL6 only, Rain (R) and a variety of other Designer Colours & Textures. Refer to options sheet for additional information.
- Trim available in Silver (S), Brushed Nickel (BN) or Oil Rub Bronze (ORB).
- Variety of Designer Towel Bars, Pulls, Knobs & Hooks available, refer to options sheet for additional information.
- ClearShield (CS) glass protection coating.

See reverse for model #'s for applicable enclosures

* = can accept door height up to 76-3/4".

***** NOTE *****

HL10 doors are considered heavy doors and as a result they require backing in the wall along the full length of the wall jamb and at the wall brace.
